SKILLS

Agile and Project Delivery

- Sprint Planning
- Release Management
- Backlog Grooming
- RAID Management
- Risk Mitigation
- Change Management
- Dependency Management
- SDLC

Agile Delivery Metrics

- Velocity tracking
- Burndown analysis
- Sprint reporting
- Capacity planning

Scrum Master Expertise

- Agile Ceremonies
- Retrospectives
- Team Facilitation
- Sprint Metrics
- Capacity Planning
- PI Planning
- Sprint forecasting

Technical Skills

- REST APIs

SHIVANGI KAUSHIK

Technical Project Manager | Scrum master | Agile Delivery Lead

PROFILE

Technical Project Manager and Scrum Master with 9+ years of experience leading Agile delivery, digital transformation, and cross-functional technology programs across eCommerce and enterprise platforms. Proven expertise in Scrum execution, sprint planning, stakeholder management, release coordination, risk mitigation, and distributed team leadership. Experienced in SAP Commerce, SAP CDC, API integrations, and Agile SDLC delivery with strong focus on customer experience, operational efficiency, and on-time project execution. Adept at bridging distributed engineering teams to deliver scalable, high-impact solutions.

- Increased customer registration conversion by 15%
- Managed global agile squads across India, Singapore, Europe, and US regions
- Led Agile ceremonies and sprint delivery for distributed engineering teams
- Improved operational efficiency through API integration and workflow optimization
- Have strong exposure of scrum methodologies including Sprint planning, backlog prioritization, Sprint retrospectives, daily standups, Impediment resolutions, team facilitation, RACI Matrix, SAFe Agile, increment delivery.

KEY PROJECTS

Mahindra Finance (Collections App)

- Played a key role in the digital transformation of a large-scale eCommerce platform, improving CSAT and profit margins.

- SQL
- SAP Commerce Cloud
- SAP CDC
- Draw.io
- CI/CD tools

Business and Leadership

- Requirements Gathering
- Cross-functional Leadership
- Digital Transformation
- Vendor Coordination
- Client Management

TOOLS AND PLATFORMS

- JIRA
- Confluence
- Azure DevOps
- Smartsheet
- Otter.ai
- Figma
- MS Projects
- Sharepoint
- Visio

METHODOLOGIES

- Scrum
- Kanban
- Waterfall
- Hybrid Delivery Model
- SAFe

LANGUAGES

- Hindi
- English

EDUCATION AND CERTIFICATES

- Advanced MBA, UpGrad – 2023
- CSPO certificate – 2022
- SAP Application Associate certificate– 2021
- B.Tech(Hons), Electronics and Instrumentation Engineering – 2014

- Managed Agile delivery for 3 squads (30+ engineers) across India and Europe, improving sprint predictability by 25% and reducing deployment blockers by 30%.
- Led requirement elicitation, sprint planning, backlog management, and stakeholder communication along with CI/CD Coordination, defect triage, deployment planning, Environment coordination, integration management, UAT coordination and production support.
- Coached team on agile maturity to improve the sprint discipline.
- Tracked delivery and documentation using velocity and burndown charts.
- Designed and maintained dashboards for project performance and delivery metrics.

Fairprice (Mirakl Integration for sellers)

- Led requirement discovery and solution design for a Seller Portal developed for a Singapore renowned retailer, supporting end-to-end business operations.
- Facilitated stakeholder workshops across business and engineering teams to align delivery roadmap, prioritize backlog, and accelerate feature delivery.
- Authored detailed user stories and acceptance criteria; collaborated closely with development teams to ensure accurate implementation.
- Created process flows and workflow diagrams, reducing ambiguity and rework during development.

Gorenje (CDC integration with Hybris)

- Led digital transformation initiatives for a Europe based client in the electronics domain by improving customer registration by 15%.
- Facilitated requirement workshops and backlog grooming; authored 50+ high-quality user stories with clear acceptance criteria.
- Improved customer details accessibility by 20% through SAP CDC integration.
- Coordinated delivery across India, Singapore, and Europe-based teams, reducing integration turnaround time from 8 weeks to 6 weeks.
- Acted as a bridge in multi vendor ecosystem, product owners, and engineering teams to ensure timely delivery.

Starbucks Corporation (US)

- Managed team which handles all technical issues faced by Starbucks Stores.
- Requirement gathering and Analysis to improve customer's experience.
- Got trained on new tools and devices from clients.
- Provided training to the team and helped them with all the technical issues.
- Resolved technical issues that occur after every deployment to improve customer experience
-
